BrightSide Books

LIFE STORY BOOKS FOR FAMILIES

We interview someone you love by video, from their own chair, and turn their life into a sewn hardcover book for the whole family. Nobody in the family has to write a word.

How it works

1. A free first conversation about the person and what you'd like the book to hold.
2. Recorded conversations from home, about two hours each, with a professional interviewer.
3. We write the book. Your family reads and approves every chapter.
4. Photographs restored; books designed, printed, sewn and delivered.

Most books take three to six months.

The editions

The Portrait	$5,000	One parent's life, told in full
The Heritage	$9,500	Our recommendation: room for the whole life
The Legacy	from $18,000	Generations of family history

Tribute books, for someone who has died, are priced in a written proposal.

Private by design

Your family's book is never published, and never used to promote BrightSide without your permission.
